 - B. 55 minutes = 1.1 contact hours
 - C. 60 minutes = 1.2 contact hours
 - D. Less than 50 minutes, do not report.
3. Minimum Standards
 - A. Classroom work.
 - i) The minimal requirements for one semester hour of credit shall be 800 minutes of scheduled instruction plus (when applicable) a scheduled culminating activity.

6. The community college must have a written agreement with the instructor of record, identifying the conditions of the services to be provided (e.g., contractual or subscribed services agreement). When courses are transmitted to remote sites, the instructor at the origination site is the instructor of record.
7. Students must be registered according to the official registration procedures of the community college.
8. Student enrollment records appropriate for audit must be maintained for each course.
9. The instructional program is the first 2 years of college only (lower division courses) as opposed to upper division (undergraduate level) or graduate (masters and doctorate) level courses. [Authority for this statement is referenced in Iowa Code, Subsection 260C.1(1), "Statement of Policy."]

B. Fall Credit Enrollment/Reporting Policies/Procedures

1. An **official school calendar**, which clearly indicates the periods students are enrolled and days when courses are not in session (holidays and professional meetings).
2. Community colleges shall not count more than 10 official days of **registration and orientation** immediately preceding a term as a part of the total enrollment for purposes of computing contact hours for credit students, provided the institution's registration and orientation program was included as a part of the official school calendar. Registration and orientation days shall be counted only for students who register prior to or during the official late registration period of the community college and no later than 2 weeks (14 calendar days) after the beginning of the courses or programs.
3. Days on which **tests** are administered may be counted for purposes of computing credit hours if they are a part of the scheduled term as indicated by the official school calendar.
4. Reporting enrollments related to **course length** must be determined as follows:
 - a. Courses over 2 weeks in length (14 calendar days). The total registration, less the withdrawals through the first 2 weeks, shall be counted as the enrollment. All credit hours shall be recorded for these students.
 - b. Courses less than 2 weeks in length (14 calendar days). The total registration less the withdrawals through the first 2 course meetings shall be counted as the total enrollment. All credit hours shall be recorded for these students.
 - c. Open Entry/Open Exit, Individualized and Self-Paced Courses. Courses that allow the student to enter at variable times and/or progress at individual rates will compute credit hours based upon the individual student's entry date. Students who withdraw in the first 2 weeks (14 calendar days) from the student's entry date will not be counted. All credit hours for the course will be counted if no withdrawal occurs through the first 14 calendar days. Individualized courses should be counted as exact credit hours.
5. Enrollment must be determined on a point-in-time reporting basis. **The withdrawal date for any student is the day on which the student is officially withdrawn from a course or program in a community college in accordance with institutional policy.** Courses, which students are withdrawn from through the 14th calendar day from the beginning date of the program or course will not be used for computation of credit hours. Courses which students are not withdrawn from through the 14th calendar day will have all credit hours for the course computed. Institutions must record the exact withdrawal.
6. Community colleges must not report more than 1 credit hour for an individual student for the same period of time. There is no circumstance that can be construed as authorization for reporting 2 or more credit hours for the same period of time.
7. Credit hours counted for: (a) on-the-job training, (b) clinical programs, and (c) work experience programs shall be computed on the basis of the actual number of credit hours a student is enrolled and participates in the program. The maximum number of hours counted for a full-time or part-time program may not exceed 40 hours per week for the combined total hours including classroom work orientation.
8. Credit hours shall not be counted for the time students spend taking tests that are not a part of a course or program. (i.e. GED tests, independent testing for licensure boards, independent screening and testing for business and industry, governmental agencies, other independent standardized testing programs).

B. Fall Credit Enrollment/Reporting Policies/Procedures, Continued

9. Each course and program offered by a community college shall clearly identify the total number of credit hours, which are classified as classroom work, laboratory, clinical practice, and work experience. Credit hour identification shall be continually revised to reflect changes.
10. Policies for such purposes as late registration and official withdrawal shall be followed when computing credit hours.
11. Courses or programs that have minor variations in the number of credit hours of classroom work and laboratory from 1 week to another may have an arbitrary assignment of hours determined for each term to facilitate clerical procedures.
12. Credit hours shall not be counted for staff development/in-service training sessions for employees of community colleges. This includes full-time or part-time employees and volunteers who are serving in the capacity of instructors, tutors, teacher aides, or recruiters for the college.
13. Holidays when students are not scheduled for classes shall not be counted when computing credit hours.
14. Days when professional meetings are held and classes are not scheduled shall not be counted when computing credit hours.
15. The day when commencement occurs may be included when computing credit hours, if this day occurs during the period in which the student was registered for a course or program.
16. Extended field trips offered as eligible credit courses/hours in which students are officially registered shall have hours computed by counting no more than the number of classroom work and laboratory contact hours that are equivalent to the number of credit hours assigned to the experience.
17. Independent Study, "To Be Arranged," courses must record all arrangements between the instructor and students indicating when the course actually met and documentation that all Credit Instructional Program/Course Criteria are satisfied.
18. Courses offered as Distance Education must be taught by instructors who have a written agreement with the community college that is granting the credit and transmitted to students at remote sites via audio and/or video telecommunications technology (i.e., web based-internet, satellite, and/or Iowa Communications Network-ICN).
 - a. Enrollments can be eligible for the general state aid (state general aid funding distribution formula) if they qualify under specific instructions contained in the credit hour enrollment reporting procedures and the Instructional Program/Course Criteria.
 - b. Offerings by a consortium of community colleges shall be reported in a uniform manner. Students must be enrolled by only one community college.

B. Baccalaureate and Above Occupations

Designed for individuals employed in occupations that require a four-year college degree or above and are required to be recertified or relicensed, which does not lead to an additional degree (e.g. Education, Health Care Providers, Lawyers, Insurance, etc.).

Note: Utilize this category for reporting Nursing and Health Care Providers regardless of their level of education.

C. Renewal – Education Certificates

Community colleges may offer renewal college credit courses for those educators desiring to renew an educational, professional teacher, professional administrator, and area education agency administrator license. (282 Iowa Administrative Code 17.5,6, and 7).

Community colleges may offer renewal college credit courses for educational, professional teachers, and professional administrators, which does not lead to a degree but which:

- Adds greater depth/breadth to present endorsements held, or
- Leads to completion of requirements for an endorsement not currently held.

Credit hours generated from course offerings in renewal licensure are eligible for inclusion in the general state aid provided the Credit Instructional Program/Course Criteria are met and the following criteria:

- Course offerings were developed by the community college as opposed to being developed by a four-year institution or area education agency.
- Course offerings that do not lead to graduate credit (masters and doctorate level courses).

It strengthens the academic as well as the technical components of the program. Students must be tracked for placement and/or future education at both levels of instruction. Enrollments must be identified in the Credit Student Information File.

Reporting for Tech Prep programs should fall into two categories.

Secondary Portion. Please indicate on the Student Information File any student who is enrolled in the secondary portion of a tech prep program.

Postsecondary Portion. Please indicate on the Student Information File those individuals whom have completed the secondary portion of a tech prep program and have subsequently entered into a postsecondary program that correlates with their secondary experience.

II. Fiscal Year Credit Hour Reporting Requirements/Procedures

Procedures are to be followed when identifying credit hours of enrollment. Guidelines for determining credit hours are found in 281 Iowa Administrative Code 21.2(13).

Credit enrollments consist of instructional offerings, courses, programs, and activities in the Arts and Science and Career and Technical Education areas/Cost Centers. This includes credit offerings in:

1. Liberal/General Studies
2. College Parallel/Career Options
3. Development Education
4. Full-Time, Advanced Standing, Shared, Part-Time, and Short-Term Career/Technical Preparatory
5. Apprenticeship
6. Reciprocal Agreement
7. Tech Prep
8. Secondary-Postsecondary Enrollment Options (PSEO)
9. Economic Development-260E/F/G, Apprenticeship, Grow Iowa Values Fund
10. Corrections
11. Contract/Customized Business/Industry Training
12. Recertification/Relicensure

Department of Education (DE) approval must be received for most of credit offerings. DE approval is not required for concentration areas in Liberal/General Studies, Developmental Education, Postsecondary Enrollment Options, Economic Development, Corrections, Contract/Customized Business/Industry Training, and Recertification/Relicensure. A Credit Program Master, specific to each community college, is maintained by the Department of Education. Contact the Department if there is any change from the Credit Program Master Listing of Classification of Instructional Program (CIP) Number and/or Instructional Code Set.

All students that receive credit for completed offerings must be reported on the Management Information System (MIS). Credit Student Enrollment File formats are available at the end of this section. Files must be as complete as possible for each student and for each course in which the student enrolls. Data files are to be transmitted or e-mailed to the designated person at the Department of Education and must be ASCII fixed length files.

Credit student data are collected on both Fall Term and Fiscal Year basis. Only students enrolled in a course in which the 14th calendar day occurred on or after July 1, of this fiscal reporting year or on or before June 30, of this fiscal reporting year will be included in the Fiscal Year Credit Student Enrollment Files. The Credit Student Awards File is due September 10, which allows the college to include summer graduates in this file.

 - C. 60 minutes = 1.2 contact hours
 - D. Less than 50 minutes, do not report.

5. Each course must be approved in accordance with the appropriate procedure as defined by local board policy.
6. The community college must have a written agreement with the instructor of record, identifying the conditions of the services to be provided (e.g., contractual or subscribed services agreement). When courses are transmitted to remote sites, the instructor at the origination site is the instructor of record.
7. Students must be registered according to the official registration procedures of the community college.
8. Student enrollment records appropriate for audit must be maintained for each course.
9. The instructional program is the first 2 years of college only (lower division courses) as opposed to upper division (undergraduate level) or graduate (masters and doctorate) level courses. [Authority for this statement is referenced in Iowa Code, Subsection 260C.1(1), "Statement of Policy."]

B. Fiscal Year Credit Enrollment/Reporting Policies/Procedures

1. An **official school calendar**, which clearly indicates the periods students are enrolled and days when courses are not in session (holidays and professional meetings).
2. Community colleges shall not count more than 10 official days of **registration and orientation** immediately preceding a term as a part of the total enrollment for purposes of computing contact hours for credit students, provided the institution's registration and orientation program was included as a part of the official school calendar. Registration and orientation days shall be counted only for students who register prior to or during the official late registration period of the community college and no later than 2 weeks (14 calendar days) after the beginning of the courses or programs.
3. Days on which **tests** are administered may be counted for purposes of computing credit hours if they are a part of the scheduled term as indicated by the official school calendar.
4. Reporting enrollments related to **course length** must be determined as follows:
 - a. Courses over 2 weeks in length (14 calendar days). The total registration, less the withdrawals through the first 2 weeks, shall be counted as the enrollment. All credit hours shall be recorded for these students.
 - b. Courses less than 2 weeks in length (14 calendar days). The total registration less the withdrawals through the first 2 course meetings shall be counted as the total enrollment. All credit hours shall be recorded for these students.
 - c. Open Entry/Open Exit, Individualized and Self-Paced Courses. Courses that allow the student to enter at variable times and/or progress at individual rates will compute credit hours based upon the individual student's entry date. Students who withdraw in the first 2 weeks (14 calendar days) from the student's entry date will not be counted. All credit hours for the course will be counted if no withdrawal occurs through the first 14 calendar days. Individualized courses should be counted as exact credit hours.
5. Enrollment must be determined on a point-in-time reporting basis for the following situations:
 - a. Courses, which begin more than 2 weeks (14 calendar days) prior to July 1, will be reported in this Fiscal Year.
 - b. Courses, which begin less than 2 weeks (14 calendar days) prior to July 1, or after July 1, will be reported in the next Fiscal Year.
 - c. The withdrawal date for any student is the day on which the student is officially withdrawn from a course or program in a community college in accordance with institutional policy. Courses, which students are withdrawn from through the 14th calendar day from the beginning date of the program or course will not be used for computation of credit hours. Courses which students are not withdrawn from through the 14th calendar day will have all credit hours for the course computed. Institutions must record the exact withdrawal.
6. Community colleges must not report more than 1 credit hour for an individual student for the same period of time. There is no circumstance that can be construed as authorization for reporting 2 or more credit hours for the same period of time.
7. Credit hours counted for: (a) on-the-job training, (b) clinical programs, and (c) work experience programs shall be computed on the basis of the actual number of credit hours a student is enrolled and participates in the program. The maximum number of hours counted for a full-time or part-time program may not exceed 40 hours per week for the combined total hours including classroom work orientation.
8. Credit hours shall not be counted for the time students spend taking tests that are not a part of a course or program. (i.e. GED tests, independent testing for licensure boards, independent screening and testing for business and industry, governmental agencies, other independent standardized testing programs).

B. Fiscal Year Credit Enrollment/Reporting Policies/Procedures, Continued

10. Policies for such purposes as late registration and official withdrawal shall be followed when computing credit hours.
11. Courses or programs that have minor variations in the number of credit hours of classroom work and laboratory from 1 week to another may have an arbitrary assignment of hours determined for each term to facilitate clerical procedures.
12. Credit hours shall not be counted for staff development/in-service training sessions for employees of community colleges. This includes full-time or part-time employees and volunteers who are serving in the capacity of instructors, tutors, teacher aides, or recruiters for the college.
13. Holidays when students are not scheduled for classes shall not be counted when computing credit hours.

17. Independent Study, "To Be Arranged," courses must record all arrangements between the instructor and students indicating when the course actually met and documentation that all Credit Instructional Program/Course Criteria are satisfied.
18. Courses offered as Distance Education must be taught by instructors who have a written agreement with the community college that is granting the credit and transmitted to students at remote sites via audio and/or video telecommunications technology (i.e., web based-internet, satellite, and/or Iowa Communications Network-ICN).

Contact Hour Reporting Requirements/Procedures

The Adult Education Deans and Directors, along with the Department of Education, reviewed changes to the Non-Credit reporting requirements reflected in this manual.

The Classification of Instructional Program (CIP) Manual is a document published by the United States Department of Education and mandated for use by the Iowa Department of Education. Its purpose is to provide a vehicle for accurate and consistent reporting of activities in community colleges. Inclusion in the federal CIP manual does not imply that a course is eligible for state general aid. This document is based on the Classification of Instructional Programs: 2000 Edition (May 2002 copyright) CIP Manual (www.nces.ed.gov/ipeds/web2000/cip2000.asp). See the Non-Credit Course Master.

The Iowa Department of Education assigns all CIP numbers based on federal and Iowa reporting requirements. Instructional Code Sets are also state assigned and utilized to classify courses by the following categories: a) Level of Instruction; b) Type of Activity; c) Special Emphasis; and d) Object and Purpose.

NOTE: Contact the Department of Education before using any CIP number that is not listed on the Non-Credit Course Master and/or to determine eligible code sets not previously reported by your college.

All contact hour (non-credit) Adult/Continuing Education student enrollments must be reported via the Management Information System (MIS). Non-Credit Student Enrollment File layouts are available at the end of this section. Data files are to be emailed to the designated person at the Department of Education and must be ASCII fixed length files.

II. General Non-Credit Instructions

A. Non-Credit Instructional Course Criteria

Non-Credit instructional courses must meet all of the criteria listed below:

1. Each course must be organized by subject matter in which instruction is offered.
2. Each course must have a minimum length of one (1) contact hour to be eligible for state general aid. One contact hour is equal to 50 minutes of instruction. Following are illustrations of how minutes of instruction are converted to contact hours for reporting purposes:
 - a. 50 minutes = 1 contact hour
 - b. 55 minutes = 1.1 contact hours
 - c. 60 minutes = 1.2 contact hours
 - d. Less than 50 minutes = not eligible.
3. Each course must have a syllabus, course outline, course objectives or detailed course description on file at the community college.
4. The community college must have a written agreement with the instructor of record, for eligible courses only, identifying the conditions of the services to be provided (e.g., contractual or subscribed services agreement). When courses are transmitted to remote sites, the instructor at the origination site is the instructor of record.
5. Each course must be approved in accordance with the appropriate procedure as defined by local board policy.
6. Students must be registered according to the official registration procedures of the community college.
7. Student enrollment records appropriate for audit must be maintained for each course.
8. Courses intended for students under 16 years of age will not be eligible for state general aid, unless state mandated/state recognized/state approved or court ordered.

B. Non-Credit Reporting Procedures

1. Non-Credit student data is collected on a fiscal year basis. For courses which bridge two fiscal years, use the following procedure to determine in which year the data is to be reported.
 - a. If the course starts on or before the 16th of June, report it in the current fiscal year.
 - b. If the course starts on or after the 17th of June, report it in the next fiscal year.
2. Community colleges must not report more than one (1) contact hour for an individual student for the same period of time.
3. Determination of eligible/non-eligible status for all courses and student enrollments is to be based on the intent and content of the course (see flowchart-decision tree).
4. Contact hours counted for clinical programs and work experience programs, under the direction and supervision of an instructor, must be computed on the basis of the actual number of contact hours a student is enrolled and participates in the program. The maximum number of contact hours counted may not exceed 40 contact hours per week.
5. The following course/activity/program categories are not eligible for state general aid.
 - a. Secondary High School Diplomas Courses and Secondary Alternative High School
 - b. Drivers Education (agreements with the secondary district to report enrollments)
 - c. Corrections
 - d. Adult Learning (gaining knowledge/skills to enhance function in society)
 - e. Leisure/Recreational (wellness, self enjoyment, hobby, etc.)
 - f. Nursing Home
 - g. Non-Occupational Food and Nutrition Classes (homemaker)
 - h. On-The-Job Training Hours (non-supervised work experience)
 - i. 260E Activities
6. Independent study, "To Be Arranged," courses must record all arrangements between the instructor and students indicating when the course actually met and documentation that all Non-Credit Instructional Course Criteria are satisfied.
7. Open entry/open exit, individualized, and self-paced courses will report the total number of contact hours that students would have received had the course been offered in a traditional manner. Examples include: self-paced programs operated by auto tutorial, online course delivery, and other non-traditional methods.
8. Total registrations less withdrawals through the first two (2) meetings are reported as total enrollment in courses with multiple sessions.
9. Contact hours reported under Adult Basic Education (ABE), English Literacy (ELL/ESL), English Literacy (ELL/ESL)-Citizenship, General Educational Development (GED), and Community Rehabilitation Programs are considered eligible and reported up to a maximum of 60 contact hours per quarter attended, not to exceed 240 contact hours per student per year.
10. All contact hour (non-credit) student enrollments must be reported via the Management Information System (MIS).
11. High School Diploma course enrollment will be reported at 60 contact hours, which is recorded at the time of enrolling, with a maximum of 5 courses per semester-300 hours.
12. Alternative High School hours will be reported up to a maximum of 60 contact hours per course with a maximum of 5 courses per semester-300 hours.

C. Determining Eligible vs. Non-Eligible

All non-credit student enrollments are required to be included in the year-end report, unless otherwise noted by the Department of Education. However, not all courses are eligible for state general aid.

This flowchart-decision tree is to be used to determine eligibility for courses that are not currently identified in this section of the manual. Consult the General Instructions section of this manual and then apply the flowchart-decision tree to the left, considering the intent and content of the course.

If a college requires a CIP number to identify a program/course/activity not listed on the Non-Credit Course Master, consult the Adult Deans & Directors and contact the Department of Education to obtain a CIP Number and Identification Code Set.

If the course curriculum is consistent with learning associated with professional, academic, or employment pursuits, use an eligible code set.

II. Financial Reporting

A. CE-4b, Pro Rate Sheet

The CE-4b report is a distribution of data from the annual AS-15E reports for the Unrestricted General Fund (Fund 1) and Restricted General Fund (Fund 2) for the present Fiscal Year of operation. The Unrestricted General Fund (Fund 1) and Restricted General Fund (Fund 2) will be subtotaled on the CE-4b. When indirect costs are prorated back to Fund 1 based on total contact hours, the total Fund 1 and Fund 2 expenditures in columns 10 - 20 should be utilized.

1. **Round all figures to the nearest dollar.**
2. The CE-4b expenditure Pro Rate Sheet is divided into two sections. They are as follows:
 - a. **Unrestricted General Fund -**
The organizational units to be financed through this fund are those, which are generally directly concerned with the operation and support of the educational program of the school as a whole--the only restrictions being those imposed by the budget.
 - b. **Restricted General Fund -**
This fund is used to account for resources that are available for the operation and support of the educational program, but which are restricted as to their use by an outside agency or person. The organizational units to be financed through this fund are usually the same, or at least complimentary, to those financed through the "General Fund." The only difference is that the numeral "2" would be assigned to the transactions affecting restricted funds.
3. The Unrestricted General Fund section is subdivided into 9 functional codes and groups. Of these major divisions, 4 relate to the Education Function (a. -d.) and 5 relate to the Support Function (e. -i.). They are as follows:
 - a. Arts and Science
 - c. Career/Vocational/Technical Education
 - d. General Adult Education (Continuing Education)
 - e. Cooperative Programs or Services
 - f. General Administration
 - g. Student Services
 - h. Learning Resources (Library)
 - i. Physical Plant
 - j. General Institution
4. Fund 1 and Fund 2 will be added together for the grand total, which will coincide with the total expenditures, reported on the AS-15E (Combined Funds 1 & 2).
5. Columns (1) through (3) will be pre-coded by the Department of Education for all programs for which have a CE-4 reimbursement form; for any programs not pre-coded, please insert, using **bold type**, in the appropriate CIP number sequence. (Please contact the Department of Education for assistance.)
6. Columns (4) through (20) will be completed by the college.
7. Column (4) (Total Contact Hours) is the total contact hours of all students enrolled from July 1 through June 30 of the reporting Fiscal Year. This figure is the basis for prorating all indirect costs. (Support Services identified in 3 above.)
